## ALLEN'S CASE.

It is on Trial in Deer Lodge—The Jury Selected.

Deer Lodge, Nov. 10.—When the case of the state against Philip Allen was called in the district court this morning, the court room was crowded with interested spectators, who had come to get a glimpse of the old man who had created so much excitement throughout the length and breadth of the state, about six months ago. He was brought into court at 10 o'clock by Deputy Sheriff Brennan and Court Bailiff Newman, who assisted him to his seat beside his counsel, J. H. Duffy. The jury was called into the box and the trial of the case began. The examination of jurors as to their qualification to sit on the case was concluded late this afternoon and is as follows: George Brunell, John McCormick, J. E. Roseborough, Joseph Jolly, Pat McCormick, L. St. Jean, David Jones, T. H. Cannon, H. Redmond, John T. Powell, John Furst and Tobias Schertz.

The examination of the jurors did not give any idea of the nature of the defense and tended only as to any previous knowledge of the case on trial.

## HIRED MEN.

They Have a Job, but Where They Know Not.

A proceeding that made a stir in labor circles during recent days is the employment of about 30 miners by an agency in this city. The work, it is said, is within a short distance of Anaconda. The men have been given no information as to the location of their work and the agency declines to make public their destination. The time set for beginning operations is next Monday. All the men required have been engaged, so it is said, and all are experienced miners. Speculation as to the work and who it is for is so far all at sea.

## Telle's Original Colored Minstrels.

Two great nights of minstrelsy is what is booked for Friday and Saturday evenings at Evans' opera house. Nothing like this jubilee of colored burnt cork artists was ever seen here before. The company numbers fifty artists. They have several excellent singers, and have one of the finest quartets before the public. One of the greatest features of a minstrel company is good music. Telle's minstrels have the famous 25th Infantry Regiment band and orchestra which by kind permission of Colonel Burt will appear here. This feature in itself will be a great treat, and will tend to draw big audiences each evening. Seats on sale now at Smith's drug store.

## At the M. E. Church Last Night.

The Methodist church was packed last evening with an appreciative audience which listened to the programme presented by the Junior and Senior Epworth leagues of the church. The programme was musical and literary in nature and the little tots, as they appeared, doing their parts in their own sweet way, were heartily applauded. The latter portion of the evening was occupied by the grown folks and splendid selections were given by Miss Tracy, Miss Blair and by Ed Pooley, who delighted the audience with two solos.

## He's Justly Proud.

Chief George Elston is justly very proud of a pretty badge which he was presented yesterday by his old-time friend Terry McMahon. It is a solid gold shield with enameled letters across it—"Chief Engineer A. F. D."—and bears the firemen's emblems. In early Nevada days George and Terry as boys together were members of the "Hook and Nicker" as they styled the volunteers at Eureka, in short for Hook and Ladder and Knickerbocker companies. After many years they met again. Mr. McMahon at present is employed at Carroll and Mr. Elston, as everybody knows, is chief of the fire department.

## HORSEMEN AND HORSES.

Notes of Them Gathered Here and There and Everywhere.

From the Breeder and Sportsman.

J. B. Haggins will sell a lot of trotting bred horses in San Francisco this winter.

Thomas E. Keating is located at Pleasanton. He may stay there this winter.

Del Norte, 2:08, by Altamont, is a first-class campaigner. Out of 50 starts he took 25 firsts, 20 seconds and four thirds.

Willard Stimson, the millionaire horse owner and driver, who was thrown out of his sulky at the Sacramento fair and had his collar bone broken, has entirely recovered.

B. O. Van Bokkelen of San Jose, has been for one year from Hiram Corey of Salinas, the trotting mare May B., 2:27½, by Altoona \$850, dam by Wapsie, a son of Green's Bashaw.

Ostler Joe, winner of the first race on Saturday, is a half-brother to the record-breaker Hotspur. He is a game colt and was giving away weight to everything in the race except Alvarado.

The race-record for the 3-year-old pacers, 2:09½, is now held jointly by four performers—Judge Hurt, by William M. Hill; Agitato, by Stenway; Sulphide, by Superior, and King of Diamonds by Velocity. The first named took his record in 1895, the other three their's this season.

Andy McDowell is domiciled in his home at Pleasanton. He has 10 horses which he will winter there and says he hopes to bring a few good ones to Montana next year, but adds he will leave the runners alone. How many, oh how many drivers and trainers have been wrecked financially by trying to beat the thoroughbreds.

The champion pacer stallion John R. Gentry, 2:04½, is to be sold at auction in the near future. It was about a year ago that William Simpson of New York bought this horse at one of the Fasig sales, paying \$7,600 for him, and it is understood that the same firm will sell him again. This will be the first time in the history of the light harness horse when a horse holding the fastest record for trotters, or pacers has been offered at public sale.

Little Tommy Butler was indefinitely suspended by the judges for his ride on Sallie Sensible in the second race Saturday. Butler had the mount on Mamie Scott, but was taken off by the officials and Willie Martin substituted. Butler declares his innocence of any wrong doing in the Sallie Sensible case, and showed his spurs full of hair to demonstrate that he had done all he could with the Salvo filly. He further says that Sallie Sensible has a ringbone and the trainer, fearful that she would break down, was afraid to give her any strong work, the result being that she was fat and in no condition to race.

## Making Rates.

Chicago, Nov. 10.—Passenger representatives of the Trunk Line Association and of the Central passenger committee met

to-day at the Great Northern hotel to discuss the making of joint rates which will enable the western lines of the Central Pacific committee to meet the rates made by the Canadian Pacific from points in the far Northwest to points in the territory of the joint traffic association. The western roads are very anxious that the rates be made, but they are unable to meet the competition of the Canadian Pacific unless they have the cooperation of the lines in the East. The question of the abolition of second-class rates from eastern territory was also before the meeting.

## A LITTLE SCHEME.

How the Recent Santa Fe Trouble Was Made Possible.

Kansas City, Nov. 10.—Under a Topeka, Kas., date, the Star this evening prints the following: Since the appointment of a receiver for the Atchafalaya, Topeka & Santa Fe by Judge Myers at Oskaloosa last week, stories have come out which, if true, admit of little doubt that on the part of some of the men behind the case it was, from its inception, a scheme to bear the stocks and bonds of the company and so make a lot of money for the men who stood in with the play. A Kansas City man of financial worth and of undoubted standing in that city declares that a few days before the action was brought at Oskaloosa, a well known insurance speculative lawyer of Topeka called on him at Kansas City with a proposition that he go in with certain Topeka, Oskaloosa and Holton men and make half a million dollars. By the terms of the proposition the Kansas City man was to put up the money to be used in selling Santa Fe stocks and bonds.

In unfolding his plan, the Topeka man stated the terms of the Kansas plan and act and the opportunity it offered for the appointment of a receiver for a railroad without notice to the company. He pointed out that a receiver could be appointed for the Santa Fe and persons who should be "short" on its stocks or bonds would make big money for the sudden and unexpected receivership would bear them. The Kansas City man finally backed out.

Three or four days before the case was instituted at Oskaloosa, it is reported that two bankers of Jefferson county went to Chicago and another to St. Louis, where they are said to have sold heavily of Santa Fe stocks and bonds. McKinley's election and a consequent revival of confidence in the country followed. Santa Fe securities went up and when it was telegraphed broadcast that a receiver had been appointed in Kansas for the railroad, there was a boom all along the line. The speculators paid no attention to the published reports of the receivership and the "play" out here in Kansas had no effect whatever. Instead of making money, the bankers and others who invested in the scheme lost heavily. Concerned in the scheme are said to be a half dozen or more men of financial standing in Topeka, and if the story in all its details should come out it would cause a big sensation.

## LABOUCHERE TALKS.

A Thrust at Messrs. Newrich and Gotrox and Their Daughters.

London, Nov. 10.—Commenting on the recent election in the United States, Henry Labouchere in the Times, says: "If Mr. Bryan had been wise he would have gone in for bimetalism, if it pleased him, but he could have left the ratio indefinite. His ratio meant the right of all to repudiate half his obligations without this bettering anyone in the future; but the victors will do well to realize that apart from himself there is a strong growing feeling in America against huge accumulations of capital by individuals, obtained by means of trusts, which are really monopolies, and gambling with clogged dice in railroads. The greedy plutocracy unsupported by an armed force cannot long hold its own against the rights and well being of all. I am in no wise certain that had I been an American I should not have voted the democratic ticket had it not been that I regard all tampering with the coinage of a country as injurious to all, and it does not strike me that Mr. Bryan is up to the presidential mark. America's worst product is its dollarocracy, whose members have literally sold their souls to recommend them. The odds are that either they or their parents acquired huge fortunes by the most questionable means. As a rule they are ignorant and vulgar, building houses in order to dazzle by ostentatious entertainments and buying pictures, for which they only care because they have been acquired at high price, and selling their souls to anyone who will enable them to hobnob with royalties and their daughters to anyone who will confer a title upon them; despising their own country and institutions and regarding themselves as in every respect superior to others on account of their dollars. If the United States is not to become a mere plutocracy, an oligarchic power, these worthless who have increased, and are increasing must greatly diminish."

## TO WEAK MEN

Dr. Sanden Offers a Special Mode of Treatment Which Never Fails to Cure.

There may be cheaper belts, but there are none as good.

## SPECIAL TREATMENT.

THE USE OF DR. SANDEN'S ELECTRIC BELT has become so general for all kinds of nervous and chronic weakness that it has urged Dr. Sanden to construct a belt adapted especially for this class of sufferers. He has perfected an appliance which permeates all the vital organs with a steady flow of vital strength, and is prepared to assure the complete cure of all cases of Weakness, Varicose, Wasting Weakness, etc. Permanent cures are warranted in three months.

"Your Belt cured me of nervous debility. In addition to a severe case of blood poison which I contracted in my work at the Parrot smelter here. The effect of the Belt in my case was surprising and wonderful. You can use my name if you wish, as I am well known," writes J. H. Oliver, 446 Atlantic St., Butte, Mont.

## It Will Cure You

Before such proofs as this—and there are hundreds of others who will vouch for the same way—you must be satisfied that this wonderful Belt possesses extraordinary curative powers. "Three Classes of Men," Dr. Sanden's celebrated work, with full information, can be had free on application by mail or at office.

## To-Day

It does not often happen so early in the winter that you can buy Women's Coats, of the latest cut, at two-thirds their value. Such is the case, as you will perceive should a visit be made to our Cloak Rooms to-day, where you will find 37 Fine Coats piled on center table awaiting purchasers.

There are Black Coats and Brown Coats, Green Coats and Blue Coats, Coats of Beaver, of Kersey, of Irish Frieze, and of Rough Stuffs,

ALL OF THE LATEST SHAPES.

Some of them are just like we have had, but you will notice the prices are \$5.00 to \$10.00 less than they were—quite a liberal percentage of reduction, considering that the most costly of the lot can be bought for \$19.75.

## The Prices Dwindle Down to \$5.85

For a beautiful Tan Cheviot, half lined with Plaid Taffeta Silk and edged with Brown Opossum Fur—a very swell garment.

You probably would not have had this opportunity if a prominent cloak maker had not wired his representative to sell his samples.

WE BOUGHT THE BEST OF THEM, AND THEY NOW AWAIT YOUR INSPECTION.
